

Responsibility.

**free for suppliers!**

IHM-Maintenance is a legal obligation for the majority of **global fleet**.

Suppliers have to provide **MDs & SDoCs** for relevant order items but receive far **too many requests** from shipowners and their service suppliers. It externalises **liabilities, costs** and **complicates** IHM-compliance significantly!

We **review** and **reject** unnecessary requests incl. **legal justification** for free during:

**REQUEST CLEANUP WEEK**  
**June 6<sup>th</sup> – 10<sup>th</sup>, 2022**

Forward received MD-requests to: [md-support@gsr-services.com](mailto:md-support@gsr-services.com)

Suppliers & shipowners are surprised how little work is required when knowledge & experience are applied by professionals. GSRs' approach has been confirmed by major associations and sets the benchmark.

Be safe while GSR takes care of IHM-obligations!

Success rate:  
up to **100%**!

Responsibility. In Business.
