Curing the IHM Headache

IHM maintenance is complex and can be a costly time-sink for shipowners and suppliers. The cycle of checking purchase data, chasing and reviewing suppliers' MDs/SDoCs, shipboard tracking and reporting drains resources and creates compliance risks.

GSR Services & ComplyEdge rewrite the rules. Merging intuitive digital workflow with human expertise transforms a regulatory hurdle into a seamless process. Choose a full-service from GSR or utilize ComplyEdge for your own in-house IHM-Maintenance.

✓ **Direct Procurement Integration:** Smart interfaces connect to your purchasing system for seamless order data transfer.

Share your order data, we take care of the rest. API-connections are available for: [IMECS](#) ([Manwayz](#)), [Hanseaticsoft](#), [Marad](#), [EX2](#), [JiBe](#), [DeepBlue](#), etc.

✓ **95% Noise Reduction:** Very few order items are IHM-relevant. Our precise filters catch instantly; the rest is handled by GSRs' Specialists. The right focus at the beginning boosts efficiency.

IHM: Cooperation & Control

✅ **End-to-End Traceability:** From order data to real-time statistics and crew tasks, all reflected online and in audit-ready IHM reports.

✅ **Dedicated Supplier Support:** Software can't fix unprepared supply chains. GSR guides & actively supports suppliers - drastically boosting response rates, completeness and accuracy, saving teams from chasing paperwork.

✅ **Expert-Verification - not guesswork:** Ambiguities are prevented by GSRs' experts to ensure zero errors and total accountability.

The Bottom Line: Flawless IHM-Compliance for protecting people & environment, hassle-free PSC inspections, easy recertifications with minimal efforts and full IHM-compliance with reduced costs.
